## DETAILED ACTION

### *Election/Restrictions*

 Restriction to one of the following inventions is required under 35 U.S.C. 121,  
*For the claims elected in the response of 11/10/2004:*

- I. Claims 25-32, drawn to Group I, classified in class 267, subclass 262.
- II. Claim 33-67, drawn to Group II, classified in class 368, subclass 276.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed such as the leaf spring element. The subcombination has separate utility such as leaf spring for a vehicle suspension system.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeanne-Marguerite Goodwin whose telephone number is (571) 272-2104. The examiner can normally be reached on alternate Fridays off.
